

DOCDO VS COVID

THE STORY ABOUT CORONAVIRUS
AND HOW TO FIGHT IT

AFRAHEALTH

Hello

We are viruses and our family name
is

Corona.....Coronavirus HE HE HE!

We have many cousins and we like to
be grumpy and make everyone feel
grumpy (:

C A N Y O U T R Y A N D D R A W W H A T I L O O K L I K E ?

Have you heard about us?

Who have you heard about most lately?

How do we make you feel?

Happy

Angry

Sad

Confused

Curious

Worried

We love to travel.
We started in China and now we are
everywhere.
Almost like round the world in 80
Days.

We like to touch hands

We like to touch eyes

We like to touch nose

We love hanging
around when
you sneeze and
cough

So now you know, I like to travel and I like to hang around and I love to make people feel grumpy.

When I visit I bring.....

If you were worried, don't be!
There are things I don't like. One is

DocDo

Hello, I am DocDo and I will tell you
what Covid19 does not like, but

Don't let Covid hear... shhhh

Covid does not like me to tell you but I am going to and you should tell everyone else, ok.....!

Covid does not like...

1. 20 second hand washing with soap or hand sanitizer

2. Sneezing or coughing into a tissue or your arm.

3. When you stay home if you sick and not mix with friends until you feel better.

5. If you wear a mask when you are

4. When you clean your work and play spaces regularly with disinfectant.

Now if you do all DocDo

you, Covid-

may come

but Covid

and

Coronavirus family *is not welcome to stay!*

tells

19

visit

So spread the word.....

1. Wash your hands

2. Don't touch your eyes, nose and mouth with unwashed hands

3. Clean all surface with detergent

4. Stay at home if you are sick

Wear a mask if you are sick

The End
